

# FEDERAL TAX CREDIT QUALIFICATION CERTIFICATION OF EFFICIENCY

The following Ambiance models of Biomass-burning appliances are “Qualified Energy Property” (Wood or Pellet Stoves or Insert) covered under the Wood and Pellet Heater Investment Tax Credit (ITC), and therefore meet the federal  $\geq 75\%$  HHV Efficiency tax credit requirements per section 25 (C).

The data for this certification came from testing to CSA B415.1 method. Testing was performed on a

representative sample by a third party EPA accredited laboratory.

The purchase and all installation costs of this stove qualify for a federal tax credit, valid if installed between January 1, 2023 and December 31, 2032.

Consult with your tax advisor to claim the federal tax credit.
